SUBJECT INDEX

Abstinence
effect of, on sensitivity of the laboratory markers of alcohol consumption γ-glutamyl-transferase, mean corpuscular volume and carbohydrate-deficient transferrin 760
sex hormone-binding globulin (SHBG) in non-cirrhotic alcoholic patients during early withdrawal and 903
short-term, rapid recovery from cognitive deficits after, a controlled test–retest study 567

Abstinence, protracted
changes during, in neurophysiological responses of rats chronically treated with ethanol, to infusions of corticotropin-releasing factor (CRF) and neuropeptide Y (NPY) 289

Abstracts
abstracts of the 11th International Conference on Alcohol 89

Abuse potential
of γ-hydroxybutyric acid, when used in alcoholism treatment 15

Accident and emergency departments
role of in identifying alcohol-related harm in young drinkers 910

Accident and emergency specialists
a survey of the current clinical practice of, in the UK, concerning vitamin supplementation for chronic alcohol misusers 862

Acetylcholine receptors
possible involvement of the nicotinic type of, in the regulation of alcohol consumption in Wistar rats 43

ACI rats
behavioural and alcohol intake characteristics of, in relation to inbred alcohol-preferring rats 378

Acupuncture
a randomized out-patient study of alcoholism treatment by 629

Adhesion molecules
increased circulating levels of these endothelial cell/leucocyte molecules (E-selectin and ICAM-1) by chronic alcohol consumption 678

Adolescents
suicide of, and alcohol-related problems in Finland 320

α_2-Adrenoceptor function
relationship of to mental well-being in alcohol withdrawal 718
status of, as assessed by clonidine-induced growth hormone secretion, in alcoholics before and during withdrawal 750

Affect
anticipated, effects of and of time perspective on riskier single occasion drinking 590

Age
effect of, on rat locus coeruleus and ethanol-withdrawal symptoms after intermittent ethanol exposure 706
effect of on levels of the laboratory markers of alcohol consumption γ-glutamyl-transferase, mean corpuscular volume and carbohydrate-deficient transferrin 760

Agencies
the need for increasing the numbers of, concerned with community support for parents and their young with alcohol problems 502

Aggression
role of serotonin in, in non-human primates and humans 402

Alcohol
a review of its interactions with histamine 141
in Russia: an Invited Commentary 824
intravenous injection of, by drug injectors: report of three cases: a letter to the Editors 918
reflections on and the young: an Invited Commentary 502

Alcohol abuse
identification of patients with chronic, in Dutch family practice 337

Alcohol abuse/dependence
estimating prevalence of, in a general hospital — an approach to reduced sample selection bias 786

Alcohol and Alcoholism
The Impact factor of, among substance abuse journals: a special article 25

Alcohol consumption
a comparison of two retrospective measures of weekly: diary vs quantity/frequency index 636
consequences of on host defence: a Review 830
data of in Rotterdam: 1980–1994 733
effect of, on sensitivity of the laboratory markers γ-glutamyl-transferase, mean corpuscular volume and carbohydrate-deficient transferrin 760
excessive, intervention for, in primary health care: attitudes and practices of English general practitioners 559
gender differences in the relationship between, and drink problems are largely accounted for by body water 894
historical patterns of in Russia 824
patterns of, in Bulgaria 622
patterns of in the Seychelles Islands (Indian Ocean) 773
possible involvement of nicotinic acetylcholine receptors in the regulation of, in Wistar rats 43
relationship of, and alcohol-related problems and problem drinking, with socioeconomic status 78
serotonin and personality as variables contributing to excessive, in non-human primates, a Review 402
validity of a single-question self-rating of, in comparison with DSM-III-R criteria 767

Alcohol consumption profile
assessment of, by time in middle-aged men in a longitudinal study based on three different diagnostic instruments 65

Alcohol craving
review of clinical and experimental aspects of 223

Alcohol dependence
a naturalistic 5-year outcome study of 850 patients with, in Catalonia 183

Alcohol deprivation effect
use of as an experimental model of alcohol consumption in relation to craving and relapse 231

Alcohol drinking
monitoring of, by measurement of urinary ethyl glucuronide concentration 71

Alcohol habits
acceptability of computerized self-report of, a patient perspective 575

Alcohol intake
attenuation of, by the extract of *Hypericum perforatum* (St John's Wort) in two different strains of alcohol-preferring rats 699

behavioural features of inbred strains in relation to alcohol preference 378
deleterious effects of moderate, on mouse embryo development 551
effect of intracerebral corticosterone implants on, in rats 851
effects of *Hypericum perforatum* extract on, in Marchigian Sardinian alcohol-preferring rats 690
Alcohol misuse
as a health and social issue in the Baltic Sea region: a review of a summary of findings from the Baltica study 805
Alcohol misuse by doctors
a UK report and one region's response (Invited Commentary) 666
Alcohol misusers
a comparison of cognitive performance in binge versus regular chronic 601
Alcohol preference
a review of animal studies of the association of, with sweet taste 386
Alcohol use
in the US general population and associated emergency room and primary care service utilization 581
Alcohol withdrawal
mental well-being in, and α_2-adrenoceptor function, as assessed by clonidine-induced growth hormone release 718
platelet and erythrocyte membrane fluidity changes in alcohol-dependent patients undergoing acute 349
relationship between psychopathology and α_2-adrenoceptor function in 750
Alcohol withdrawal syndrome
correlation of the behavioural symptoms of with ^{3}H-nitrendipine binding *in vivo* to brain membrane 35
Alcohol-dependent patients
platelet serotonin binding characteristics in 726
Alcohol-deprivation effect (ADE)
lack of correlation of, with saccharin drinking or locomotor activity in rats 542
Alcohol-preferring rats
attenuation of alcohol intake by the extract of *Hypericum perforatum* (St John's Wort) in two different strains 699
effects of *Hypericum perforatum* extract on alcohol intake by Marchigian Sardinian 690
Alcohol-related harm
identification of by accident and emergency departments in young drinkers 910
Alcohol-related medical disorders
relationship to drinking pattern 330
Alcohol-related problems
relationship of, and alcohol consumption and problem drinking with socioeconomic status 78
Alcoholic patients
a Commentary on status at surgery 148
Alcoholics
rapid recovery from, cognitive deficits in abstinent, a controlled test–retest study 567
secondary depression in weaned: implications of Lesch's typology of chronic alcoholism: a letter to the Editors 916
sex hormone-binding globulin (SHBG) in non-cirrhotic, during early withdrawal and after longer abstinence 903
Alcoholics Anonymous
personality and alcohol/substance disorder patient relapse, as related to attendance at self-help group meetings 359
Alcoholism
a review of clinical utility of trait markers of 649
an animal model of, involving long-term alcohol self-administration with repeated alcohol deprivation phases 231
association between preference for sweets and excessive alcohol intake: a review of animal and human studies 386
chronic, secondary depression in weaned alcoholics: implications of Lesch's typology of: a letter to the Editor 916
psychological dependence, locus of control, parental bonding and personality disorders in 396
relationship between drinking pattern and medical disorders of 330
the visual P3 as a potential vulnerability marker of: the ESBRA–Nordmann 1998 Award Lecture 267
treatment of, and measurement of craving and relapse in relation to 254
underlying personality differences in patients with, and/or substance disorder with and without affective disorder 370
Alcoholism treatment
a randomized out-patient study of, by acupuncture 629
a review of the role of γ-hydroxybutyric acid in 15
outcome variables in the evaluation of lessons from the Italian Assessment of Alcoholism Treatment (ASSALT) project 873
Ancient Greece and Rome
was the fetal-alcohol syndrome recognized in 868
Animal model
of alcoholism, involving long-term alcohol self-administration with repeated alcohol deprivation phases 231
Animal models
non-human primates as, Type II alcoholism 402
Anti-alcohol campaign
of Mikhail Gorbachev, and its effects on alcohol consumption and alcohol-related deaths in Russia 824
Assessment
of alcoholism treatment project and outcome variables in the evaluation of 873
AUDIT
Alcohol Use Disorder Identification Test: a comparison between paper and pencil and computerized versions 882
use of protocol for enhancing the identification of excessive drinkers in medical wards 55
AUDIT (Alcohol Use Disorder Identification Test)
value of in screening young drinkers for alcohol-related harm and by accident and emergency department 910
AUDIT questionnaire
use of to explore young men's drinking habits 672
Audition
effects of alcohol on 741
Auditory detection
frequency-selective effects of alcohol on 741
Auditory signals
central effects of alcohol on 741
Australian youth
comparison of drink-driving habits of, in rural and urban subjects 59
Average alcohol content
(AAC) of Spanish alcoholic beverages: a study of and development of the concept of a standard drink 153
Bacteriocolonic alcohol dehydrogenase
role of, in the enhancement of the rate of ethanol elimination after chronic ethanol treatment of rats 48

Baltic study
a summary of the findings from, on alcohol misuse as a health and social issue in the Baltic Sea region: a Review 805
Beer
isolation and structural determination of a potent stimulant of gastrin release from 161
Bibliometric data
of substance abuse journals, including Impact Factors 25
Binge drinkers
a comparison of cognitive performance in, versus regular chronic alcohol misusers 601
Binge drinking
as a pattern of alcohol consumption in Russia 824
Biological markers
ethyl glucuronide in urine, as a marker of alcohol consumption and a relapse marker with clinical and forensic implications 71
Biological markers of alcohol intake
determination of ethyl glucuronide as, in post-mortem material (letter to the Editors) 262
Body water
differences in levels of account for gender differences in the relationship between alcohol consumption and drink problems 894
Brain
protection against ethanol-induced lipid peroxidation in, by melatonin in rats 842
Brief intervention
for excessive alcohol consumption in primary health care, and attitudes of English general practitioners towards 559
Bulgaria
patterns of alcohol consumption in 622
CAGE
scores, indicative of drink problems, and alcohol consumption: role of body water in the gender differences in the relationship between 894
Carbohydrate-deficient transferrin
sensitivity of, in detecting alcohol consumption, as influenced by age, abstinence and level of consumption 760
use of, in assessing alcohol consumption profiles of middle-aged men 65
CD14 receptor
effect of short-term ethanol exposure on expression of, in rat liver 311
Cell arrest
a flow cytometric and fluorescence microscopic analysis of ethanol-induced G_2 + M block: ethanol dose dependently delays the progression of the M phase 300
Cell division
effects of exposure to ethanol on, in L929 cell cultures 300
Cerebrospinal fluid 5-hydroxyindol-3-ylacetic acid
low levels of, indicating serotonin dysfunction as a predictor of aggression and excessive alcohol consumption by non-human primates, a review 402
Children of alcoholics
the Amsterdam study of, in relation to the use of the P3 as a vulnerability marker of alcoholism 267
Chronic alcohol misusers
a survey of the current clinical practice of psychiatrists and accident and emergency specialists in 862
Chronic ethanol administration
role of gut flora in the enhancement of the rate of ethanol elimination by, in rats 48
Ciprofloxacin
inhibition by, of the enhanced rate of ethanol elimination by rats chronically treated with ethanol 48
Citation
use of, in calculating Impact Factors of journals and other bibliometric data 25
Clinical practice
a survey of current, of psychiatrists and accident and emergency specialists in the UK concerning vitamin supplementation 862
Clinical trials
a systematic review of randomized controlled, for preventing injuries through interventions for problem drinking 609
Clinical utility
a review of, of trait markers of alcoholism 649
Clonidine
-induced growth hormone response, as a test of α_2-adrenoceptor function, in relation to mental well-being in acute alcohol withdrawal 718
growth hormone secretion stimulated by, as a test of α_2-adrenoceptor function in alcohol withdrawal, in relation to depression and anxiety 750
Co-morbidity
of categorical DSM III-R disorders with sub-threshold alcohol-misusing adolescent suicides in Finland 320
Cognitive deficits
rapid recovery from, in abstinent alcoholics: a controlled test–retest study 567
Cognitive performance
a comparison of, between binge drinkers and regular chronic alcohol misusers 601
Colonic bacteria
role of, in the enhancement of the rate of ethanol elimination after chronic ethanol treatment of rats 48
Complications
of surgery on alcoholic patients 148
Computerized assessments
acceptability of self-report by, of alcohol habits: a patient perspective 575
Computerized AUDIT
a comparison of a version of, with the paper and pencil version 882
Conditioned place preference
blockade of induction of by ethanol in rats, by NMDA receptor antagonists 175
Consultation-liaison patients
persistence of substance use related hospital utilization among psychiatric patients 346
Contractions of portal vein
decrease in spontaneous and KCl-induced, in Sardinian rats by chronic ethanol consumption 164
Corticosterone
effects of intracerebral implants of on alcohol intake and preference in rats 851
Corticotropin-releasing factor (CRF)
effect of infusion of, on neurophysiological responses in rats chronically treated with ethanol 289
Craving
an animal model of, involving the use of the alcohol deprivation effect to increase alcohol consumption 231
clinical and laboratory aspects of that for alcohol 223

for alcohol: a three-pathway psychobiological model of 197
measurement of, and of relapse, in alcoholism 254
role of serotonin in 244
Craving and relapse
'Neurobio-psychosocial understanding': An introduction to the host symposium on, held during the ESBRA–Nordmann 1998 Award Meeting on 7–8 May, 1988, in Amsterdam 195
Craving questionnaires
discussion of, in relation to alcohol 223
Craving scales
comparison of, in alcoholism 254
Cytokines
roles of in the effects of alcohol on host defence 830
Dependence
psychological (emotional) in alcoholics in relation to personality disorders 396
Depression
secondary, in weaned alcoholics: implications of Lesch's typology of chronic alcoholism: a letter to the Editor 916
Depression and anxiety
relationship of to α_2-adrenoceptor function in alcohol withdrawal 750
Development
abnormal, of mouse embryo, after preconceptional alcohol ingestion 551
Diagnosis
of alcoholism: the implications in, of a three-pathway psychobiological model of craving for alcohol 197
Diary
a comparison of, as a retrospective measure of weekly alcohol consumption, with quantity/frequency index 636
Dihydropyridine binding
correlation of in mice *in vivo* with the behavioural disturbances of the alcohol withdrawal syndrome 35
Diphenyl hexatriene
as a probe in fluorescence polarization measurement of membrane fluidity of platelets and erythrocyte ghosts from alcohol-dependent patients undergoing acute withdrawal 349
Dizocilpine
an NMDA receptor antagonist, blocks ethanol-induced conditioned place preference in rats 175
MK-901, an NMDA-receptor antagonist, prevents the development of sensitization to ethanol in DBA/2J mice 283
Doctors
role of education of, in enhancing the identification of excessive drinkers in general medical wards 55
Drink problems
gender differences in the relationship between, and alcohol consumption are largely accounted for by body water 894
Drink-driving behaviour
comparison of urban and rural Western Australian youth 59
Drinking
exploring young men's habits of, using the AUDIT questionnaire 672
risky single occasion, and effects of anticipated affect and time perspective 590
Drinking pattern
no role of, in response of out-patient alcoholics to treatment with acupuncture 629
question on 'how would you rate your' 767
relationship to alcohol-related medical disorders 330
Drug injectors
intravenous injection of alcohol by, report of three cases: a letter to the Editors 918
Dual diagnosis
differences in personality measures between patients with pure alcohol/substance use disorder and patients with co-morbid mood disorder 370
E-Selectin
increased circulating concentration of in chronic alcoholics 678
Early intervention
changes in attitudes and practices in primary health care with regard to, in problem drinking 795
Editorials
A change in Presidents of the MCA 2
Happy New Year 1
Education
of doctors and nurses, to enhance their identification of excessive drinkers in general medical wards 55
the need for, on the dangers of alcohol to the young 502
Electroencephalograph
measurement of activity of, in rat brain following chronic ethanol administration and in response to infusion of corticotropin-releasing factor (CRF) and neuropeptide Y (NPY) 289
Embryo growth
deleterious effects of chronic moderate alcohol intake on *in vitro* preimplantation, in female mice 551
Emergency room
use of, and other primary care sources, by alcohol and drug users in the US general population 581
Endothelium
hepatic, and the elevation of circulating levels of adhesion molecules in chronic alcoholics without liver disease 678
Endotoxin
effect of short-term ethanol exposure on expression of binding protein of, in rat liver 311
Epidemiology
patterns of alcohol consumption in the Seychelles Islands (Indian Ocean) 773
Episode of care
in assessment of patients with chronic alcohol abuse in Dutch family practice 337
ESPAD
European School Project on Alcohol and Other Drugs. Results of the UK study on truancy and perceived school performance 886
Ethanol
-induced hepatic steatosis and lipid peroxidation are prevented by taurine in rats 529
a review of experimental models used to measure the direct and indirect teratogenicity of 125
blockade of conditioned place preference induced by in rats, by antagonists of the *N*-methyl-D-aspartate type of glutamate receptors 175
dizocilpine (MK-801) prevents the development of sensitization to, in DBA/2J mice 283
effects of chronic exposure of rats to, on neurophysiological responses to corticotropin-releasing factor (CRF) and neuropeptide Y (NPY) 289
effects of $GABA_A$ receptor agonist zolpidem on changes in sleep-time and memory induced by chronic, to rats 511

protection against lipid peroxidation induced by chronic administration of, by melatonin in rats 842
synergistic action of, and nerve growth factor, in induction of neuronal nitric oxide synthase in PC12 cells in culture 506
Ethanol consumption
second generation effects of maternal, on immunity to *Trichinella spiralis* in female rats 520
Ethanol content
variations of in Spanish alcoholic beverages, and the need for standardization of units of measurement 153
Ethanol drinking
relationship between history of free-choice and operant responding 685
Ethanol elimination rate
inhibition of its enhancement after chronic ethanol administration by ciprofloxacin in rats 48
Ethyl glucuronide
a possible marker of alcohol consumption in post-mortem material (letter to the Editors) 262
as a marker of alcohol consumption and as a relapse marker with clinical and forensic implications 71
Event-related brain potentials
as a possible vulnerability marker of alcoholism 267
Event-related potentials
changes in recordings of, in rat brain following chronic ethanol administration and in response to infusion of corticotropin-releasing factor (CRF) and neuropeptide Y (NPY) 289
Excessive drinkers
identification of, by doctors and nurses, in general medical wards 55
Family practice
medical, assessment in, of patients with chronic alcohol abuse 337
Fatty liver
prevention of alcohol-induced, by taurine in rats 529
Fawn-Hooded rats
behavioural and alcohol intake characteristics of, in relation to inbred alcohol-preferring rats 378
Fertilization
decreased, of mouse embryos following chronic moderate alcohol consumption 551
Fetal-alcohol syndrome
a review of experimental models 125
was it recognized by the ancient Greeks and Romans? 868
Flow cytometry
analysis using, of ethanol-induced G_2 + M block in cultured L929 cells 300
Fluidity
of platelet and erythrocyte membranes from alcohol-dependent patients before and during acute alcohol withdrawal 349
Forced-swimming test
effects of *Hypericum perforatum* extract on alcohol intake and, in Marchigian Sardinian alcohol-preferring rats 690
Free radicals
protection against formation of products of, by chronic ethanol administration, by melatonin in rats 842
Frequency and quantity
of drinking alcohol, as assessed by a single-question self-rating 767
Frequency discrimination thresholds
frequency-selective effects of alcohol on 741
Gastric and intestinal damage
possible medication by histamine of alcohol induced 141
Gastrin
isolation of, and structural determination of a potent stimulant of, from beer 161
Gender
differences in, in the relationship between alcohol consumption and drink problems are largely accounted for by body water 894
Gender differences
in patterns of alcohol consumption in the Seychelles Islands 773
Gene expression
synergistic action of ethanol and nerve growth factor in induction of neuronal nitric oxide synthase 506
General hospital
estimating prevalence of alcohol abuse and dependence in one — an approach to reduce sample selection 786
General population alcohol survey
use of, in studying the relationship between alcohol consumption, alcohol-related problems and problem drinking, with socioeconomic status 78
General practitioners
attitudes and practices of English, towards intervention for excessive alcohol consumption in primary health care 559
changes in attitudes and practices of, in primary health care with regard to early intervention in problem drinking 795
γ-Glutamyl-transferase
sensitivity of, in detecting alcohol consumption, as influenced by age, abstinence and level of consumption 760
Growth hormone
clonidine-induced release of, as a test of α_2-adrenoceptor function, in relation to mental well-being in alcohol withdrawal 718
clonidine-induced secretion of, in alcohol withdrawal, in relation to psychopathology 750
Growth retardation
of mouse embryos following chronic moderate alcohol intake 551
Guidelines
the need for, in training of doctors and nurses in the identification of excessive drinkers in general medical wards 55
Handling-induced behaviour
relationship of, in alcohol-withdrawn mice with ^{3}H-nitrendipine binding to brain membranes *in vivo* 35
Harmful effects of drinking
their recognition by the ancient Greeks and Romans 868
Hazardous drinking
among young men, as identified by the AUDIT questionnaire in exploring drinking habits 672
Health care
primary, attitudes and practices of English general practitioners towards intervention for excessive alcohol consumption in 559
Health educators
role of, in reducing the incidence of risky single occasion drinking among the young 3
Hepatoprotection
by taurine against alcohol-induced fatty liver and lipid peroxidation 529

High risk
of alcoholism, the use of the P3 as a marker of, in children of alcoholics 267
Histamine
a review of its interactions with alcohol 141
Histamine H_2 receptor antagonists
effects of, on alcohol metabolism and disposition 141
Histamine tissue levels
elevation of, by alcohol 141
Home detoxification
a comparison of, with minimal intervention strategies for problem drinkers: a letter to the Editors 261
Hospital attendance
by psychiatric consultation patients, shows persistence of substance use-related utilization 346
γ-Hydroxybutyric acid
a review of its usefulness in the treatment of alcoholism 15
5-Hydroxytryptamine
role of in drug-seeking behaviour, craving and relapse in alcoholism 244
Hyperexcitability
of the alcohol-withdrawal syndrome in mice, and the role of ^{3}H-nitrendipine binding sites 35
Hypericum perforatum
attenuation of alcohol intake by the extract of (St John's Wort) in two different strains of alcohol-preferring rats 699
effect of extract of on alcohol intake in Marchigian Sardinian alcohol-preferring rats 690
ICAM-1
increased circulating concentration of in chronic alcoholics 678
Identification
of excessive drinkers in general medical wards by doctors and nurses 55
Imipramine
platelet binding characteristics of, in alcohol-dependent patients 726
Immobility
in the forced-swim test: behaviour of inbred rat strains in relation to alcohol preference 378
Immunity
modulation of by alcohol consumption: a Review 830
to *Trichinella spiralis* in female rats and second generation effects of maternal alcohol consumption 520
Impact Factor
of *Alcohol and Alcoholism*, in relation to other substance abuse journals: a special article 25
Implants
intracerebral, of corticosterone, affect alcohol intake by rats 851
Impulse control
role of serotonin in, as related to craving and relapse in alcoholism 244
Impulsivity
role of serotonin defect in, in personality and other biological variables contributing to excessive alcohol consumption by non-human primates 402
Inflammation
decreased response, as a causative factor in alcohol-induced impairment of host defence 830
Information processing
possible defects in, in children of alcoholics, as a potential vulnerability marker 267
Instruments
of measurement of craving in alcoholism 254
Integration
of Baltic Sea countries in the 1990s and its relationship to alcohol misuse as a health and social issue 805
Intermittent ethanol exposure
effects of age and, on rat locus coeruleus and ethanol-withdrawal symptoms 706
International Classification of Primary Care (ICPC)
use of criteria of, in assessment and identification of patients with chronic alcohol abuse in Dutch family practices 337
Intervention
for excessive alcohol consumption in primary health care, and attitudes and practices of English general practitioners towards 559
for problem drinking, in relation to prevention of injuries: a systematic review of randomized controlled clinical trials 609
missed opportunities for, in hospital encounters with substance-using patients 346
role in, of anticipated affect and of time perspective in risky single occasion drinking 590
Intravenous
injection of alcohol by drug injections, a report of three cases: a letter to the Editors 918
Italian
Assessment of Alcoholism Treatment (ASSALT) project, lessons from in outcome variables in the evaluation of alcoholism treatment 873
Karyokinesis
delayed progression of, by exposure to ethanol of cultured L929 cells 300
Kupffer cells
short-term ethanol exposure of rats increases the expression of CD14 receptors of, and lipopolysaccharide-binding protein 311
L-701,324
an NMDA receptor antagonist, blocks ethanol-induced conditioned place preference in rats 175
Laboratory paradigms
discussion of, in studies of craving for alcohol 223
Leucocyte levels
as influenced by second generation effects of maternal alcohol consumption on immunity to *Trichinella spiralis* in female rats 520
Lever pressing
as a test of ethanol reinforcement (operant behaviour) and prior history of alcohol drinking 685
Lifestyle assessments
through computerized self-report of alcohol habits by patients 575
Lipid peroxidation
prevention of alcohol-induced, by taurine in rats 529
protection against, induced by chronic ethanol administration, by melatonin in rats 842
Lipopolysaccharide-binding protein
increased expression of, in Kupffer cells of rat liver, after short-term ethanol exposure 311
Liver
protection against ethanol-induced lipid peroxidation in, by melatonin in rats 842

Liver injury
relationship of alcohol-induced to expression of Kupffer cell CD14 receptor and lipopolysaccharide-b, in rat liver 311
Locomotor activity
in the open-field test: lack of correlation of, with the alcohol-deprivation effect in rats 542
prevention of the development of sensitization to the stimulation of, by ethanol in DBA/2J mice, by the NMDA receptor antagonist dizocilpine (MK-801) 283
Locus coeruleus
effects of age and intermittent ethanol exposure on numbers, volume and morphology of neurons of in rats 706
Locus of control
assessment of, in alcoholics and controls, in relation to personality disorders 396
Longitudinal study
of 850 alcohol-dependent patients from Catalonia: the 5-year outcome report 183
Loss of control
possible role of serotonin deficiency in, in relation to alcohol drinking and relapse 244
Lung
protection against ethanol-induced lipid peroxidation in, by melatonin in rats 842
Markers
trait, of alcoholism: clinical utility, a review of 649
MAST, Mm-questionnaire
use of, in assessing alcohol consumption profiles of middle-aged men 65
Mean corpuscular volume
sensitivity of, in detecting alcohol consumption, as influenced by age, abstinence and level of consumption 760
Mecamylamine
effects of, as a nicotinic acetylcholine receptor non-competitive antagonist, on alcohol consumption by Wistar alcohol-preferring rats 43
Medical and surgical wards
estimating prevalence of alcohol abuse and dependence in, in one general hospital 786
Melatonin
protection by, against chronic ethanol-induced lipid peroxidation in rats 842
Membrane fluidity
effects of alcohol dependence and subsequent withdrawal on, in platelet and erythrocyte membranes 349
Memory
effect of zolpidem on, and hypnotic effects of ethanol in chronically ethanol-treated rats 511
Mental well-being
relationship of in alcohol withdrawal with α_2-adrenoceptor function, as assessed by clonidine-induced growth hormone release 718
***N*-Methyl-D-aspartate receptors**
blockade by antagonists of, of ethanol-induced conditioned place preference in rats 175
***N*-Methyltyramine**
isolation and identification of, in beer, as the potent stimulant of gastrin release 161
Microtubules
inhibition of, elongation of polar, and of shortening of Kinetochore, microtubules by ethanol exposure of cultured L929 cells 300
Middle-aged
increased problem drinking amongst, in Rotterdam for the period 1980–1994 733
Minimal intervention
a comparison of strategies of, with home detoxification for problem drinkers: a letter to the Editors 261
Model
a three-pathway psychobiological, of craving for alcohol 197
Models of ethanol teratogenicity
a review of 125
Month of year
role of, in estimating prevalence of alcohol abuse and dependence in a general hospital 786
Mood disorder
effect of presence of, in patients with alcohol/substance disorder, on Myers Briggs type personality indicators 370
Moods
mental well-being assessment of, in alcohol withdrawal in relation to α_2-adrenoceptor function, as measured by clonidine-induced growth hormone release 718
Morbidity and mortality
in a 5-year outcome study of a longitudinal naturalistic investigation of 850 alcohol-dependent patients 183
Mortality
effects of alcohol consumption in Russia on, an Invited Commentary 824
Motility of portal vein
impairments of, after chronic ethanol consumption by Sardinian alcohol-preferring rats 169
Myers Briggs type personality indicator
of relapse and attendance at self-help group meetings by alcohol-disorder patients 359
Myers Briggs type personality indicators
influence on, of mood disorder in alcohol/substance disorder patients 370
Naltrexone
use of to antagonize craving for alcohol 223
Neuronal differentiation
synergistic effect of ethanol and nerve growth factor on, in PC12 cells in culture 506
Neuropeptide Y (NPY)
effect of infusion of, on neurophysiological responses in rats chronically treated with ethanol 289
Neuropsychological deficits
comparison of, between binge drinkers and regular chronic alcohol misusers 601
Nicotine
effect of on alcohol consumption and food intake in Wistar rats 43
Nicotinic acetylcholine receptors
possible role of, in control of alcohol intake in the rat 43
Nitric oxide synthase
synergistic action of ethanol and nerve growth factor in induction of, in PC12 cells in culture 506
NMDA receptors
possible involvement of, in the sensitization to the locomotor-stimulating action of ethanol in DBA/2J mice 283
North Scotland
regional response to the report of the Working Group on the 'Misuse of alcohol and other drugs by doctors' 666

Nurses
changes in attitudes and practices of, in primary health care with regard to early intervention in problem drinking 795
Open-field test
lack of correlation of locomotor activity during, with the alcohol-deprivation effect or saccharin drinking in rats 542
Operant behaviour
relationship of, for ethanol in rats with long-term history of free-choice ethanol consumption 685
Outcome measurement
at 5 years, of a naturalistic study of 850 alcohol-dependent patients in Catalonia 183
Outcome variables
in the evaluation of alcoholism treatment: lessons from the Italian Assessment of Alcoholism Treatment 873
Paper and pencil
version of AUDIT, compared with a computerized version 882
Parental bonding
assessment of, in alcoholics and controls, in relation to personality disorders 396
Paroxetine
changes in platelet binding sites, of ^{3}H in alcohol-dependent patients 726
Patients
acceptability by, of computerized self-report of alcohol habits 575
Personality
as a predictor of attendance at self-help group meetings and of relapse by alcoholic patients 359
differences in, between alcohol/substance disorder patients with and without an affective disorder 370
no role of, in response of out-patient alcoholics to treatment with acupuncture 629
Personality disorders
in alcoholics and controls, in relation to psychological (emotional) dependence, locus of control and parental bonding 396
Personality–biological interactions
an introduction to the Markku Linnoila Memorial Symposium 357
Physician–patient relationship
concerns about loss of, by patients through computerized self-report of alcohol habits 575
Platelets
serotonin binding characteristics in, of alcohol-dependent patients 726
Portal vein
effects of chronic ethanol administration on motility and function of, in Sardinian alcohol-preferring rats 169
Post-mortem fluids and tissues
can ethyl glucuronide be determined in (letter to the Editors) 262
Preference
of alcohol is influenced by intracerebral implants of corticosterone 851
Preoperative evaluation
of alcoholism and its role in minimizing complications after surgery on alcoholic patients 148
Prevalence
estimation of, of alcohol abuse and dependence in one general hospital — an approach to reduce sample selection bias 786
Primary care
service utilization by alcohol users 581
Primary health care
changes in attitudes and practices in, with regard to early intervention in problem drinking 795
Primates
non-human, as models for studying the roles of serotonin function and personality in excessive alcohol consumption 402
Problem drinkers
a comparison of home detoxification of, with minimal intervention strategies: a letter to the Editors 261
Problem drinking
changes in attitudes and practices in primary health care with regard to early intervention in 795
development of in Rotterdam: 1980–1994 among youngsters and the middle-aged 733
interventions for, and preventing injuries: a systematic review of randomized controlled clinical trials 609
relationship of, and alcohol consumption and related problems, with socioeconomic status 78
Procreation
views of the ancient Greeks and Romans on the role of alcohol in 868
Protein kinase C
role of in the synergistic action of ethanol and nerve growth factor in neuronal nitric oxide synthase induction in PC12 cells in culture 506
Psychiatrists
a survey of the current clinical practice of, in the UK, concerning vitamin supplementation for chronic alcohol misusers 862
Quantity/frequency index
a comparison of, as a retrospective measure of weekly alcohol consumption, with diary 636
Randomized controlled study
of out-patient alcoholics with acupuncture 629
Recovery
from cognitive deficits in abstinent alcoholics: a controlled test–retest study 567
Reinforcement
ethanol, and long-term ethanol consumption 685
Relapse
measurement of craving in relation to, in alcoholism 254
possible role of serotonin in 244
prediction of, by personality traits of alcohol-dependent patients 359
use of urinary ethyl glucuronide as a marker of, in alcoholism 71
Risk perception
in single occasion drinking, and the role of anticipated affect and time perspective 590
Risky single occasion drinking
a review of its extent, definition, correlates, policy and intervention among young people 3
anticipated affect as a potential strategy for reduction of 590

Rotterdam
development of alcohol consumption and problem drinking in, for the period 1980–1994 733
Russia
alcohol consumption in, an Invited Commentary 824
Saccharin drinking
lack of correlation of, with the alcohol-deprivation effect or locomotor activity in rats 542
Saccharin intake
relationship of, to alcohol intake in inbred alcohol-preferring rat strains 378
Sample selection
bias in, in estimating prevalence of alcohol abuse and dependence in one general hospital 786
School performance
truancy and: a study of UK teenagers in the European School Project on Alcohol and Other Drugs 886
Screening
for alcohol-related harm and harmful alcohol consumption in young drinkers by accident and emergency departments 910
Self citation
further improvement of Impact Factor of *Alcohol and Alcoholism* after correction for, among substance abuse journals 25
Self-rating
question on 'how would you label your drinking pattern' 767
Self-report
acceptability of computerized, of alcohol habits by patients 575
of alcohol consumption, use of, in assessing alcohol consumption profiles of middle-aged men 65
of alcohol consumption patterns in the Seycheiles Islands 773
Sensitization
to the locomotor-stimulating action of ethanol is prevented by the NMDA receptor antagonist dizocilpin (MK-801) in DBA/2J mice 283
Serotonergic mechanisms
possible involvement of, in the effects of carbohydrates (sweets) on alcohol consumption 386
Serotonin
platelet binding characteristics for, in alcohol-dependent patients 726
role of in craving and relapse in alcoholism 244
Service utilization
primary care and emergency room, by alcohol users 581
Services
dedicated to prevention of, and monitoring, the misuse of alcohol and other drugs by doctors: a Commentary on its recommendation by the Working Group 666
Sex hormone-binding globulin (SHBG)
a potential marker of excessive alcohol consumption 903
in non-cirrhotic alcoholic patients during early withdrawal and after longer abstinence 903
Seychelles Islands
patterns of alcohol consumption in 773
Sleep-time
Effect of the $GABA_A$ agonist zolpidem on and memory in chronically ethanol-treated rats 511
Socio-economic
role of in patterns of alcohol consumption in Bulgaria 622
Socio-economic status
relationship to alcohol consumption, alcohol-related problems and problem drinking 78
St John's Wort
attenuation by an extract of (*Hypericum perforatum*) of alcohol intake in two different strains of alcohol-preferring rats 699
effect of extract of (*Hypericum perforatum*) on alcohol intake by Marchigian Sardinian alcohol-preferring rats 690
Standard drink unit
does the concept of apply to viticultural societies? 153
Sub-threshold alcohol misuse disorders (SDAM)
incidence of suicide in Finnish adolescents in relation to 320
Substance use
hospital utilization related to, among psychiatric consultation patients 346
Suicide
of adolescents in Finland, and alcohol-related problems 320
Surgery
of the alcoholic patient 148
Sweet taste
a review of animal and human studies of the association of, with excessive alcohol intake and preference 386
Symposium
Host, on 'craving and relapse: neurobio-psychosocial understanding' held during the ESBRA–Nordmann 1998 Award Meeting, 7–8 May, 1988, Amsterdam, The Netherlands 195
Systematic review
of randomized controlled clinical trials of preventing injuries through interventions for problem drinking 609
Taurine
prevention by, of ethanol-induced hepatic steatosis and lipid peroxidation in rats 529
Teenage drinking habits
comparison of, in urban and rural Western Australian youth 59
Teenagers
a study of UK, in relation to truancy and perceived school performance in the European School Project on Alcohol and Other Drugs 886
Teratogenicity of ethanol
a review of experimental models used to measure 125
Testis
protection against ethanol-induced lipid peroxidation in, by melatonin in rats 842
Time perspective
manipulation of results in higher negative affect in relation to risky single occasion drinking 590
Trait markers
for alcoholism: clinical utility, a review of 649
Transition
Bulgaria in: and patterns of alcohol consumption 622
of the Baltic Sea region through eastern transformation and western integration: alcohol misuse as a health and social issue in relation to 805
Treatment
of alcoholism, outcome variables in the evaluation of, lessons from the Italian ASSALT project 873
of alcoholism: implications in, of a three-pathway psychobiological model of craving for alcohol 197
Treatment outcome
at 5 years, of 850 alcohol-dependent patients from Catalonia, in a longitudinal naturalistic study 183
Tri-dimensional personality questionnaire
use of, as a predictor of relapse and of attendance at self-help group meetings, by alcoholic patients 359

Trichinella spiralis
second generation effects of maternal ethanol consumption on immunity to, in female rats 520
Triglycerides
prevention of ethanol-induced accumulation of, in rat liver, by taurine 529
Truancy
and perceived school performance: a study of UK teenagers in the European School Project on Alcohol and Other Drugs 886
Type 3
alcoholics, in Lesch's typology of chronic alcoholism, show persistent depressive symptoms after detoxification: a letter to the Editors 916
Uncontrolled drinking
an animal model of, involving the alcohol deprivation effect, in rats 231
US general population
use of emergency room and primary care services by alcohol users among 581
Vascular system
effects on smooth muscle of, of chronic ethanol consumption by Sardinian alcohol-preferring rats 169
Ventral striatal
identification of as a potential site of facilitation of alcohol intake in rats in studies with corticosterone implants in 851
Vitamin B supplementation
a survey of the current clinical practice of psychiatrists and accident and emergency specialists in, for alcohol misusers 862
Vulnerability marker of alcoholism
the potential of P3 as 267
Weekly alcohol consumption
a comparison of diary versus quantity/frequency index as two retrospective measures of 636
Wernicke–Korsakoff syndrome
and current clinical practice among UK psychiatrists and accident and emergency specialists concerning vitamin supplementation for chronic alcohol misusers 862
Withdrawal
effect of age and intermittent ethanol exposure on rat locus coeruleus and symptoms of 706
sex hormone-binding globulin (SHBG) in non-cirrhotic alcoholic patients during early, and after longer, abstinence 903
Working Group
on the misuse of alcohol and other drugs by doctors, a Commentary on and one region's response 666
Young
an Invited Commentary on alcohol and 502
Young men
exploring drinking habits of, using the AUDIT questionnaire 672
Young people
review of risky single occasion drinking among 3
Youngsters
increased problem drinking amongst, in Rotterdam for the period 1980–1994 733
Zolpidem
effects of, in memory and hypnotic effects of ethanol in chronically ethanol-treated rats 511
